

Show notes Episode #9  
Intro

## Manipulation

In this episode we begin the investigation of other forms of treatment. Millions of people have been helped by manipulation and we begin to try to understand why. What patients can hope to achieve and what can providers expect when they use a practitioner of manipulation. My hope is to continue to expand the expedition of people who are all working together to get patients better in this scrooge of human suffering.

Bio:

Doctor Daniel Clearfield is a Board-Certified physician in Primary Care Sports Medicine as well as Family Medicine & Osteopathic Manipulative Medicine (OMM). He is a 2<sup>nd</sup> generation Doctor of Osteopathic Medicine (D.O.). He started the company *Motion is Medicine Sports Medicine* in 2019 to better serve his patients and athletes. Additionally, he serves as an official team physician for USA Wrestling and USA Judo. He is a nationally and internationally recognized speaker in the field of sports medicine and he has covered sporting events all over the world.

Dr. Clearfield has special interests in utilizing OMT in sports medicine, regenerative injection therapies, MSK-ultrasound, concussion management, and teaching/mentoring students, residents, and fellows. He enjoys spending time with his wife Sarina, kids Hannah, Campbell, Lainey, & Scarlett and his dog Kodey. In his spare time, he enjoys outdoor

activities and he has participated in multiple endurance and obstacle-based races and competitions.
